Wandsworth	144	16	▼
Westminster	72	33	▼

Rank is out of 354 local authorities in England.
Change is change in rank over IMD 2004

Key	

To create your choropleth map:

1. Decide on a scale (just use the first 'rank' column) high rank = LOW deprivation.
2. Choose good, clear colours for your key. (remember, red=danger, so use it for bad stuff!! Try to make it go from light to dark colours, so it is easy to understand).
3. Shade your map!

Extension:

Describe the distribution of deprivation in London.

What might lead to areas having bad levels of deprivation?
